## PHILLIP INSTITUTE OF TECHNOLOGY

The Director of the Greek Australian Archives and Lecturer in Modern Greek Art at the Phillip Institute of Technology has approached our Society with a request that all our current and past records be made available to the Institute so that they can be recorded on micro

film and stored in the archives of the Institute. All our records would then be returned to us but a permanent history would be available at the Institute for historical purposes. The records that we have however are not complete and once again I ask members who have records in particular minute books to return them to the Society NOW.

We thank Mimis Sofocleous the Director of the Institute for his offer to have this work done and to join with other Associations to have our records permanently kept at the Institute.
